U.S. PUBLIC LAND SURVEY MONUMENT RECORD

Instructions: This record shall show the location of the corner and shall include all of the following nine elements (a through i).

(a) Identify the corner by reference to the U.S. public land survey system.

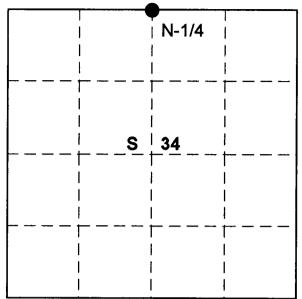

O = Corner monument restored.

N-1/4 Corner

Sec. <u>34</u>, T<u>33</u> N, R <u>10 E</u>

Type of Monument:

2-1/4" Alum. Pipe W/ 3-1/4" Alloy cap Projecting 8" above ground

Langlade COUNTY

(b) Describe any record evidence, monument evidence, occupational evidence, testimonial evidence or any other material evidence you considered, and whether the monument was found or placed.

Original corner established in 1860 by Hiram C. Fellows Gov.t Deputy Surveyor, from which Hemlock 11" bears N30W 8 lks., and Lind 14" bears S15E 6 lks.

In 1905 E.S. Brooks county surveyor subdividing section 34,recovered the original Hemlock B.T. and marked N.B.T. Birch 12' S74E 40.5 lks.

Found old rock fence running east and west and old wire fence running north. A field lies To the south of rock fence. A timber change east and west of wire fence running north.

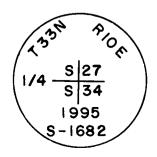

Found fence corner evidence at the C-1/4 and NC-1/16 ran control between the two and The point of intersection of rock and wire fence, for a distance of 2245.99', with only a four Minute bust in the total line. Brooks had a distance of 2245.98' Accepted this as the best available evidence as it is harmoniously related to existing condition.

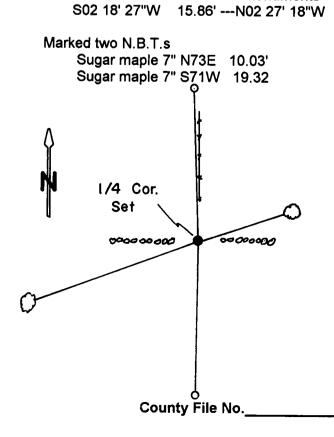

(c) In the plan view drawing below, provide reference ties to at least 4 witness monuments, or, if the location is within a municipality, to at least 2 witness monuments. (Witness monuments shall be made of concrete, natural stone, iron or other equally durable material).

(d) Show a plan view drawing depicting the relevant monuments and reference ties which is sufficient in detail to enable accurate relocation of the corner monument if the corner monument is disturbed. Indicate north.

Describe witness monuments:
