LANGLADE COUNTY U.S. PUBLIC LAND CORNER RESTORATION

The Southeast corner of Section 26, T. 34 N., R. 11 E., Langlade County, WI.

Corne	er was: (check all that apply)	4341126 0000
	Restored through acceptance of an obliterated evidence location.	
X	Restored through acceptance of a found perpetuated location.	
	Determined to be lost and re-established through proportionate methods.	
	Show bearings and distances to PLSS corners used for proportioning, and show original dis	tances).
	Restored/recovered/re-established in a location that differs from a previously established position.	
	(Show difference in plan view below).	
	Check here if additional information is shown on the reverse side of this form.	

Describe record evidence, recovered physical evidence, occupational evidence, testimonial evidence and all other evidence considered in the recovery/restoration of the corner.

The original corner was established in 1859 by William E. Daugherty. Original bearing trees, spruce, 6", S45°E, 70 links and a spruce, 9", N85°W, 70 links. In 1982, former surveyor Kelly found an old scribed 3" x 3" post with old BT's, found in place. He set a 3" x 42" aluminum cap monument and 3" x 3" tam. post replacing existing scribed post. He marked 3 new tam. BT's. 04/29/05 D. Tlusty found Kellys aluminum monument in somewhat open spruce swamp. Having no other evidence or information on this corner, I accept the aluminum monuement as the best evidence of the corner.

Physical description of the monument set:

Did not replace the existing aluminum monument which is in good condition, flush with swamp.

Set a 6' white vinyl sign post on west edge of monument. Top of sign post is up 2.2' above monument Describe the accessories used to perpetuate the corner. Include a plan view drawing and accessories found/set. Describe measuring point on bearing trees. Show any topographic features that would aid in future recovery of the corner. **LEGEND** 0 3/4" x 30" rebar set 3/4" rebar found 1" iron pipe found RR spike found Set white vinyl sign post utility pole irings magnetic with hand compass. Tree distances measured to low face blazes. Southeast corner, Section 26-34-11 N71° E 39.2' 6" tamarac, dead but solid S 90° W 6" tamarac, dead but solid old BT dead, shown by Kelly as S 81° W. 16.5' ANTION WIS.
